Dear Kathryn,

The Town and Country Planning Act 1990

Full planning permission for the construction and installation of onshore electrical infrastructure required to export electricity from the White Cross Offshore Wind Farm to the national distribution network; including installation of 132kV underground electricity transmission cable(s) from landfall at Saunton Sands Car park to a new substation at East Yelland. Construction of temporary facilities required during construction to include haul road, vehicular access, compounds, associated works areas and a permanent substation access road . Construction of a new substation under the Rochdale Envelope Approach with additional information regarding architectural form and silhouette, design code, scale and layout, landscaping, lighting, and appearance and materials. at White Cross Offshore Windfarm (Onshore Project)

As you are aware, I am considering the above application. The target date for the determination of the application was the 9 January 2024. Whilst every endeavour was made to reach a decision on your application within the statutory time, unfortunately this has not been possible.

The reason why your application has not been decided is due to insufficient information being submitted to allow me to reach a reasoned conclusion on the significant effects of the development on the environment.

As you have stated you wish to submit further information, and indicated a provisional date of 23rd February 2024 for submission, I have considered an appropriate timetable to allow for further consultation, consideration and determination.

I am therefore writing to ask for your formal agreement to extend the period for deciding the application until the 1st July 2024.

Please indicate your agreement to this extension of time by return of this email within 1 day from the date of this emailed letter. Please retain a copy of this letter for your records.

Yours faithfully,

Neale Hall
